Re: *The Town of Grantwood Village, et al. v. St. Louis County, Missouri, et al.*
Cause No. 06CC-002388

Dear Mike and Paul:

For purposes of public disclosure regarding the outcome of the Gravois Creek litigation, we would suggest the following summary:

“The judge dismissed the lawsuit ‘without prejudice’ (meaning it can be refiled at a later date) based upon the pending Erickson contract to develop the property as a retirement community. We believe the judge believed that because of this pending contract, there was no need to rule on the difficult and complicated legal issues in the case. The perseverance of the litigation by area residents in stopping an unwanted development against a well-heeled and politically savvy adversary, is an effort of which the community can be proud.”

It was a pleasure to represent you in this matter. Please feel free to contact us if you need assistance with any other matters.

Very truly yours,

JENKINS & KLING, P.C.
